Índice

1. Routes

2. Services

3. Components

4. Structure

```typescript
export const routes: Routes = [
  {
    path: '',
    component: IndexTag,
    title: (_route: ActivatedRouteSnapshot) => {
      const lang = inject(Language).currentLang();

      return (lang === "en" ? 'Articles' : 'Artículos') + " :: Tuesta"
    },
    data: { slug: 'Todos' }
  },
  {
    path: 'tag/:slug',
    component: IndexTag,
    title:  'Tag :: Tuesta',
  },
  {
    path: 'posts/:slug',
    component: Post,
    title: (route: ActivatedRouteSnapshot) => {
      const lang = inject(Language).currentLang();
      const slug = route.paramMap.get('slug');
      const post = POSTS_DATA[lang].find(p => p.slug === slug);

      return post ? `${post.title}` : 'Redirigiendo...';
    }
  }
];

Programación Funcional

Los límites de mi lenguaje son los límites de mi mundo.
— Ludwig Wittgenstein

El descontento fundacional

```typescript
export const appConfig: ApplicationConfig = {
  providers: [
    provideBrowserGlobalErrorListeners(),
    provideRouter(routes),
    provideRouter(routes, withComponentInputBinding()),
    provideAppInitializer(() => {
      const theme = inject(Theme);
      return theme.getTheme();
    })
  ]
};

export class IndexTag {
  slug = input.required<string>();

  protected lang = inject(Language).currentLang;
```
